Re: Tonolli Corporation Site, Carbon County, PA

Dear Ms. McCartney:

I write in response to Mr. Wassersug's letter of August 12, 1988 addressed to "Thomas C. Reed/Wimco Metals, Inc." Please be advised that Mr. Reed no longer represents Wimco; this Firm does. Please have my name and address inserted in your service list so that future correspondence will be directed to my attention.

Based on our telephone conversation of September 1, 1988 I understand that EPA is convening a meeting of PRPs in Philadelphia on October 18 to discuss PRP participation in the Remedial Investigation/Feasibility Study and other response actions.

Wimco will attend the Philadelphia meeting and consider participating, to the extent of its liability, with other PRPs in the conduct of a Remedial Investigation/Feasibility Study.

As you know, Wimco's involvement at this site is almost entirely limited to its role as a broker of batteries supplied by others. In most cases, Wimco never even took possession of the batteries in question. Wimco will shortly identify for you the generators of these batteries so that you may notify them of their

potential liability and invite them to participate at the
October 18 meeting.

Very truly yours,

REED SMITH SHAW & McCLAY
